Destiny Tech100 Inc.

Manager's Commentary (Unaudited)

As of December 31, 2023

Dear Shareholders:

For the 12 months ended December 31, 2023, the investments held by Destiny Tech100 (the "Fund") generated a return of -7.3%¹. This compares to a 43.4% return for the Nasdaq Composite Index, a benchmark, over the same period.

This year's market environment followed the trend set in the latter half of 2022. Interest rates continued to affect a broad spectrum of asset classes and economic sectors, as the Federal Reserve signaled a commitment to maintaining a "higher for longer" approach to rates.

Higher nominal and real rates enhance the appeal of alternatives like credit, raising the hurdle rate for risk assets – a shift that was priced into the stocks of public tech companies last year. However, limits to secondary liquidity and wide bid-ask spreads delayed a similar repricing in private company shares. These factors have impeded price discovery and are further complicated by many private firms choosing to conserve cash and extend runway rather than accept reduced valuations.

Fortunately, forecasting macroeconomic thunderstorms is not our focus. The art of building and investing in businesses is one of grit, patience, and a recognition that the progress of a product that matters is rarely linear. One of the most important inputs to success is time.

The Tech100 currently maintains positions in 23 private companies, with over 40% of the portfolio concentrated in aviation and aerospace businesses such as SpaceX, Relativity Space, and Boom Supersonic that were underwritten assuming a 5-10 year time horizon. We remain optimistic with respect to the intrinsic growth of these holdings, which should converge with portfolio performance over time.

One of the two investments we made this year exemplifies this strategy: we increased our position in Axiom Space, which now represents approximately 10% of the portfolio. Led by the former head of NASA's international space station (ISS) program, Axiom has secured a sole-source contract to build the successor to the ISS and intends to use the proceeds from this project to build the first generation of commercial space destinations. As with the other companies in our portfolio, the execution of this vision needs to be consistent, but the results will be lumpy.

Additionally, on December 22nd, the SEC declared our resale registration statement effective. With this milestone met, we're now anticipating a listing on the NYSE in Q1 or Q2 2024.

We appreciate your continued support and look forward to an exciting year ahead.

Sincerely,

Sohail Prasad

¹ Performance represents the depreciation on investments for the one-year period of December 31, 2022 to December 31, 2023.

Destiny Tech100 Inc.

Performance and Graphical Illustrations

December 31, 2023 (Unaudited)

The Fund's performance figures* for the period ended December 31, 2023 compared to its benchmark:

Fund/Index	One-Year	Annualized Since Inception ^(a)
Destiny Tech100 Inc. - NAV	(7.29)%	(23.24)%
Fund Benchmark		
NASDAQ Composite Index (b)	43.42%	19.51%

Comparison of Change in Value of 10,000 Initial Investment

* The Fund's past performance does not guarantee future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the sale of Fund shares. Current performance of the Fund may be lower or higher than the performance quoted. Returns are calculated using the net asset value or "NAV" on December 31, 2023.

(a) The Fund commenced operations on May 12, 2022. The performance is based on average annual returns.

(b) The Nasdaq Composite Index is a market cap-weighted index, simply representing the value of all its listed stocks. The set of eligible securities includes common stocks, ordinary shares, and common equivalents such as ADRs. However, convertible debentures, warrants, Nasdaq-listed closed-end funds, exchange traded funds (ETFs), preferred stocks, and other derivative securities are excluded.

The graph shown above represents historical performance of a hypothetical investment of \$10,000 in the Fund since inception. Past performance does not guarantee future results. All returns reflect reinvested dividends, but do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the sale of Fund shares.

* Special Purpose Vehicles ("SPVs") are private investments vehicles formed to invest in a particular portfolio company that rely on an exemption from the Investment Company Act pursuant to section 3(c)(1) or section 3(c)(7).

(a) Non-income producing security.

(b) Level 3 securities fair valued using significant unobservable inputs.

(c) Restricted investments as to resale.

(d) PIK interest is included in the fair value of the investment.

(e) Investment is a Special Purpose Vehicle that holds multiple forward agreements that represent common shares of the indicated portfolio company. Forward contracts involve the future delivery of shares of a portfolio company upon such securities becoming freely transferable or the removal of restrictions on transfer. The aggregate total of the forward contracts for each SPV represents less than 5% of Fund's net assets.

(f) The Fund has a direct investment in an SPV which has invested in an underlying portfolio company. The number of units presented, if applicable, are the units in the SPV owned by the Fund, which represents the equivalent number of securities of the underlying portfolio company for which the investment has economic exposure.

(g) The Fund has a direct investment in an SPV which has invested in an underlying portfolio company. If applicable, the number of units presented are the units in the SPV owned by the Fund, which represents the equivalent number of securities of the underlying portfolio company for which the investment has economic exposure. The SPV has invested through one or more underlying SPVs.

(h) As of December 31, 2023, 0% of DXYZ OAI I LLC's capital was invested in OpenAI (see Note 11).

(i) The SPV has invested through one underlying SPV, resulting in the related economic exposure to the Fund.

(j) The SPV has invested through five underlying SPVs, resulting in the related economic exposure to the Fund. Five of the underlying SPVs have one additional layer of SPVs, while one has two layers.

(k) The SPV has invested through one underlying SPV, resulting in the related economic exposure to the Fund.

(l) Valued using net asset value as practical expedient.

Distributions to Shareholders		
From net investment income	—	—
From return of capital	—	—
Total distributions	—	—
Effect of shares issued from SAFE note conversion to Common Shares	—	7.18
Increase/(Decrease) in Net Asset Value	(0.38)	6.82
Net Asset Value, End of Period	\$ 4.84	\$ 5.22
Total Return ⁽⁴⁾	(7.29)%	426.08% ⁽⁵⁾
Supplemental Data and Ratios		
Net assets attributable to common shares, end of period (000s)	\$ 52,624	\$ 56,764
Ratio of expenses to average net assets ⁽⁶⁾	(5.92)%	(5.13)%
Ratio of net investment income to average net assets ⁽⁶⁾	(5.25)%	(4.82)%
Portfolio turnover rate ⁽⁷⁾	0.09%	0.24%

- (1) The Fund commenced operations on January 25, 2021. For the period from January 25, 2021 to May 11, 2022, the Organizer was the sole owner of the Fund's shares of common stock of 2,500,000 shares. Financial Highlights were not presented for the Fund for the 2021 period.
- (2) On May 11, 2022, each SAFE holder received from the Fund a number of shares of common stock equal to the total amount invested by such investor in the private offering divided by \$10.00. Following the SAFE Conversion and the reverse stock split, the Fund has 10,879,905 shares of common stock issued and outstanding.
- (3) Calculated using the average shares method.
- (4) Returns do not reflect the deduction of taxes the shareholder would pay on fund distributions or the sale of Fund shares. Returns for period less than a year are not annualized.
- (5) Total return has been calculated using the absolute value of the initial Net Asset Value due to a negative Net Asset Value as of January 1, 2022. The total return for the fund has been calculated for shareholders owning shares for the entire period and does not represent the return for holders of SAFE notes that converted to common stock during the year ended December 31, 2022.
- (6) Ratios do not include expenses of underlying private investments in which the Fund invests.
- (7) Portfolio turnover rate is calculated using the lesser of year-to-date sales or year-to-date purchases over the average of the invested assets at fair value for the periods reported. Ratio is not annualized.

Destiny Tech100 Inc.

Notes to Financial Statements

December 31, 2023

(1) Organization

Destiny Tech100 Inc. (the “Fund”) was formed on November 18, 2020, as a Maryland corporation and commenced operations on January 25, 2021. On May 13, 2022, the Fund registered with the Securities and Exchange Commission as an investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund is a non-diversified, closed-end management investment company. On December 22, 2023, the Fund’s Registration Statement on Form N-2 relating to the resale of up to 1,455,276 shares of the Fund’s common stock was declared effective by the Securities and Exchange Commission. The Fund intends to apply to have the common stock listed on the New York Stock Exchange (the “NYSE”) under the symbol “DXYZ”.

Destiny Advisors LLC, a Delaware limited liability company (the “Adviser”), serves as the investment adviser to the Fund. The Adviser is responsible for the overall management and affairs of the Fund and has full discretion to invest the assets of the Fund in a manner consistent with the Fund’s investment objective.

The Fund’s investment objective is to maximize the portfolio’s total return, principally by seeking capital gains on equity and equity-related investments. Under normal market conditions, the Fund will invest at least 80% of its total assets in equity and equity-linked securities of companies principally engaged in the technology sector. Equity-linked securities mean any debt or equity securities that are convertible, exercisable or exchangeable for equity securities of the issuer, or that provide the Fund with economic exposure to the equity securities of such issuer. The Fund will invest principally in the equity and equity-linked securities of what it believes to be rapidly growing venture-capital-backed emerging companies, located primarily in the United States. The Fund may also invest on an opportunistic basis in select U.S. publicly traded equity securities or certain non-U.S. companies that otherwise meet its investment criteria. The Fund concentrates its investments in companies operating in one or more industries within the technology group of industries. There can be no assurance that the Fund’s investment objective will be achieved or that its investment program will be successful. We intend to be treated, and continue to qualify annually, as a RIC under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), beginning with the taxable year in which we qualify for such treatment. No assurance can be provided that we will qualify as a RIC for any taxable year.

The Adviser is a wholly-owned subsidiary of Destiny XYZ Inc. (the “Organizer”). The Organizer manages and controls the Adviser.

The Fund’s board of directors (the “Board”) has overall responsibility for monitoring and overseeing the Fund’s operations and investment program. A majority of the directors of the Board are not “interested persons” (as defined by the 1940 Act) of the Fund or the Adviser.

(2) Summary of Significant Accounting Policies (as restated, see Note 10)

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements. All accounts are stated in U.S. dollars unless otherwise noted. The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Fund is an investment company and follows the accounting and reporting guidance in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, *Financial Services – Investment Companies*.

(a) Investments

Investments in securities may include private investments vehicles formed to invest in a particular portfolio company that rely on an exemption from the Investment Company Act pursuant to section 3(c)(1) or section 3(c)(7) (“special purpose vehicles” or “SPVs”). These investments are recorded on the trade date, the date on which the Fund agrees to purchase or sell the securities.

The Fund may invest in SPVs that hold forward contracts. Forward contracts involve the future delivery of shares of a portfolio company upon such securities becoming freely transferable or the removal of restrictions on transfer. The counterparties are shareholders of the portfolio company. The Fund does not have information as to the identities of the shareholders; however, counterparty risk is mitigated by the fact that there is not a single counterparty on the opposite side of the forward contracts.

The Fund may invest in “forward contracts” that involve shareholders (each a “counterparty”) of a potential portfolio company whereby such counterparties promise future delivery of such securities upon transferability or other removal of restrictions. This may involve counterparty promises of future performance, including among other things transferring shares to us in the

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

future, paying costs and fees associated with maintaining and transferring the shares, not transferring or encumbering their shares, and participating in further acts required of shareholders by the counterparty and their agreement with us. Should counterparties breach their agreement inadvertently, by operation of law, intentionally, or fraudulently, it could affect the Fund's performance. The Fund's ability and right to enforce transfer and payment obligations, and other obligations, against counterparties could be limited by acts of fraud or breach on the part of counterparties, operation of law, or actions of third parties. Measures the Fund takes to mitigate these risks, including powers of attorney, specific performance and damages provisions, any insurance policy, and legal enforcement steps, may prove ineffective, unenforceable, or economically impractical to enact.

The organizer of each SPV holding forward contracts may carry an insurance policy at their own expense to protect the SPV against certain insured risks with respect to the forward purchase contracts. Insured risks include (i) an intentional attempt by a shareholder to deceive the organizer or the SPV or a failure to honor an obligation under, or refusal to settle, an obligation to the SPV; (ii) certain events of bankruptcy; and (iii) in the case of death of a shareholder, the refusal of the shareholder's heirs, beneficiary, or estate to honor the obligation.

In cases where the Fund purchases a forward contract through a secondary marketplace, it may have no direct relationship with, or right to contact, enforce rights against, or obtain personal information or contact information concerning the counterparty. In such cases, the Fund will not be a direct beneficiary of the portfolio company's securities or related instruments. Instead, it would rely on a third party to collect, settle, and enforce its rights with respect to the portfolio company's securities. There is no guarantee that said party will be successful or effective in doing so.

Realized gains or losses on dispositions of investments represent the difference between the original cost of the investment, based on the specific identification method, and the proceeds received from the sale. The Fund applies a fair value accounting policy to its investments with changes in unrealized gains and losses recognized in the statement of operations as a component of net unrealized gain (loss).

(b) SPV Presentation

The Fund has restated the presentation and disclosure of SPV investments in this annual shareholder report. In historical financial statements the Fund presented the underlying issuer and economic exposure of each SPV investment, with a tickmark explaining the SPV ownership structure on the schedule of investments. The presentation and disclosure of the SPVs in the current year financial statements has been revised to align with Regulation S-X 12-12. The Schedule of Investments in these financial statements reflects the name of the SPV in which each investment was made, along with the underlying issuer and economic exposure in parentheses. Accordingly, all corresponding notes and supporting disclosure have been updated to conform with the current presentation. The Fund believes these revisions enhance transparency for financial statement users.

(c) Income Taxes

For the year ended December 31, 2022 and for the period from November 11, 2020 (date of inception) through December 31, 2021, the Company was subject to tax as a corporation. The Fund intends to elect to be treated, and to qualify annually, as a regulated investment company ("RIC") under the Internal Revenue Code of 1986, as amended (the "Code"), for U.S. federal income tax purposes beginning with its taxable year ended December 31, 2023. As a RIC, the Fund will be required to comply with certain regulatory requirements.

The Fund records uncertain tax positions in accordance with ASC 740 on the basis of a two-step process in which (1) it determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, it recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority. There were no material unrecognized tax benefits or unrecognized tax liabilities related to uncertain income tax positions as of and through December 31, 2023.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

(d) Cash and Cash Equivalents

Cash and cash equivalents include U.S. dollar deposits at bank accounts at amounts which may exceed insured limits. The Fund is subject to risk to the extent that the institutions may be unable to fulfill their obligations.

(e) Income and Expenses

Interest income is recognized on an accrual basis as earned. Dividend income is recorded on the ex-dividend date. Expenses are recognized on an accrual basis as incurred.

Offering costs were accounted for as deferred costs until the Fund registered as an investment company under the 1940 Act and were then amortized to expense over twelve months on a straight-line basis. These costs consist of fees for the legal preparation and filing fees associated with the private offering. As of December 31, 2023, \$72,170 of offering costs originally accounted for as deferred costs have been amortized to expense in the Statement of Operations.

Certain investments may have contractual payment-in-kind ("PIK") interest. PIK represents accrued interest that is added to the principal of the investment on the respective interest payment dates rather than being paid in cash and generally becomes due at maturity or upon being called by the issuer. PIK is recorded as interest income.

(f) Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Fund's management to make estimates and assumptions that affect the amounts reported in the financial statements. Because of the uncertainties associated with estimation, actual results could differ from those estimates used in preparing the accompanying financial statements.

(g) Concentrations of Credit Risk

Financial instruments which potentially expose the Fund to concentrations of credit risk consist of cash and cash equivalents. The Fund maintains its cash and cash equivalents in financial institutions at levels that have historically exceeded federally-insured limits.

(h) Risks and Uncertainties

All investments are subject to certain risks. Changes in overall market movements, interest rates, or factors affecting a particular industry, can affect the ultimate value of the Fund's investments. Investments are subject to a number of risks, including the risk that values will fluctuate as a result of changing expectations for the economy and individual investors.

Liquidity and Valuation Risk - Liquidity risk is the risk that securities may be difficult or impossible to sell at the time the Adviser would like or at the price it believes the security is currently worth. Liquidity risk may be increased for certain Fund investments, including those investments in funds with gating provisions or other limitations on investor withdrawals and restricted or illiquid securities. Some SPVs in which the Fund invests may impose restrictions on when an investor may withdraw its investment or limit the amounts an investor may withdraw. To the extent that the Adviser seeks to reduce or sell out of its investment at a time or in an amount that is prohibited, the Fund may not have the liquidity necessary to participate in other investment opportunities or may need to sell other investments that it may not have otherwise sold.

The Fund may also invest in securities that, at the time of investment, are illiquid, as determined by using the Securities and Exchange Commission's (the "SEC") standard applicable to registered investment companies (i.e., securities that cannot be disposed of by the Fund within seven calendar days in the ordinary course of business at approximately the amount at which the Fund has valued the securities). Illiquid and restricted securities may be difficult to dispose of at a fair price at the times when the Fund believes it is desirable to do so. The market price of illiquid and restricted securities generally is more volatile than that of more liquid securities, which may adversely affect the price that the Fund pays for or recovers upon the sale of such securities. Investment of the Fund's assets in illiquid and restricted securities may also restrict the Fund's ability to take advantage of market opportunities.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

Valuation risk is the risk that one or more of the securities in which the Fund invests are priced differently than the value realized upon such security's sale. In times of market instability, valuation may be more difficult, in which case the Adviser's judgment may play a greater role in the valuation process.

General SPV Risks

Our investments in SPVs will typically require us to bear a pro rata share of the vehicles' expenses, including operating and offering related costs, which could result in higher expenses than if we invested in the single underlying portfolio company directly. Because SPVs are organized by managers unaffiliated with us and we are typically be one of many investors in the SPV, in purchasing an SPV interest, we entrust all aspects of the management of the SPV to its manager. SPVs are generally organized as limited liability companies, and to the extent an SPV is organized as a Delaware Series LLC, we would be subject to the risks inherent in investing in a Delaware Series LLC. Some SPVs in which we invest may impose restrictions on when investors may withdraw their investment or limit the amounts investors may withdraw. To the extent we seek to reduce or sell out our investment at a time or in an amount that is prohibited, we may not have the liquidity necessary to participate in other investment opportunities or may need to sell investments that we would not have otherwise sold. Additionally, SPVs are not publicly traded and therefore may not be as liquid as other types of investments. Further, the fair value of investments in SPVs may differ from that of the underlying securities if held directly. Finally, as investors in an SPV, we own interests in the SPV and have no ownership rights to the underlying securities. These characteristics present additional risks for stockholders. Individual SPVs that we invest in may have different terms and structures, which may present unique risks and result in different fee levels.

Concentration Risk - Many of the Fund's investments will be in U.S. private companies in the technology sector, and therefore will be particularly exposed to the risks attendant to investments in that sector. Investors generally have no assurance as to the degree of diversification of the Fund's investments, either by geographic region, asset type or sector. Accordingly, a significant portion of the Fund's investments may be made in relatively few geographic regions, asset types, security types or industry sectors. For example, as of December 31, 2023, approximately 51.6% of our investment portfolio is invested in private technology companies in the aerospace/aviation industry. Any such concentration of risk may increase losses suffered by the Fund, which could have a material adverse effect on the Fund's overall financial condition.

Market Disruption and Geopolitical Risk - The Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. War, terrorism, and related geopolitical events (and their aftermath) have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on U.S. and world economies and markets generally. Likewise, natural and environmental disasters, such as, for example, earthquakes, fires, floods, hurricanes, tsunamis and weather-related phenomena generally, as well as the spread of infectious illness or other public health issues, including widespread epidemics or pandemics such as the COVID-19 outbreak, and systemic market dislocations can be highly disruptive to economies and markets. Those events as well as other changes in non-U.S. and domestic economic and political conditions also could adversely affect individual issuers or related groups of issuers, securities markets, interest rates, credit ratings, inflation, investor sentiment, and other factors affecting the value of Fund Investments.

(i) Restricted securities

Restricted securities are securities of privately-held companies that may be resold only upon registration under federal securities laws or in transactions exempt from such registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale, at the issuer's expense, either upon demand by the Fund or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Adviser. The restricted securities may be valued at the price provided by dealers in the secondary market or, if no market prices are available, the fair value as determined in good faith using methods approved by the Adviser. As of December 31, 2023, there is no expected date for such restrictions to be removed for the Fund's restricted securities, with the exception of Mapbear, Inc., in which the lock-up restriction expired on February 15, 2024.

Notes to Financial Statements (continued)

December 31, 2023

(3) Fair Value Measurements (as restated, see Note 10)

The Fund's Fair Valuation Procedures incorporate the principles found in Rule 2a-5 of the 1940 Act in conjunction with Topic 820 ("ASC 820") of the Financial Accounting Standards Board ("FASB"). Rule 2a-5 was created to address valuation practices with respect to the investments of a registered investment company and the oversight role performed by the Board in the valuation process. The Board has appointed the Adviser to serve as the Valuation Designee to perform fair value determinations.

ASC 820 was created to establish a framework for measuring fair value through the use of certain methods and inputs and shall be used by the Adviser in combination with the directives of Rule 2a-5 of the 1940 Act. ASC 820 defines fair value as the price of an asset that one would observe in an orderly purchase and sale transaction between market participants at a specific point in time. Data inputs used to perform a valuation are categorized as follows:

Readily Available (Level I) – Investments that trade frequently, for which pricing quotations in active markets are easily accessible.

Limited Availability (Level II) – Investments lacking easily recognizable market data, but where certain other observable data points exist such as market quotes for similar investments, and other observable market conditions such as interest rates, yield curves, default rates, etc.

Unavailable (Level III) – Investments where there is virtually no market data available, with no observable market data points or inputs. Fair value may be derived from professional judgments and assumptions in the form of an analysis that considers relevant factors and criteria determined in good faith, using a methodology such as liquidation basis, present value of cash flows, income approach, etc. or an independent third-party appraisal, should the committee feel the need to engage one.

Investments in publicly traded securities are generally carried at the closing price on the last trading day of the reporting period, while private investments are carried at fair value, estimated using applicable methodologies or are valued at their NAV as a practical expedient. In instances where a public or private real estate market transaction is not sufficiently similar to the investment being valued, alternative valuation methodologies shall be utilized. The determined fair value may be discounted even further on account of factors including but not limited to capital and risk structure, restrictions on resale, and ownership structure.

The Fund is registered under the 1940 Act. The Fund's investments will be fair valued on a quarterly basis and the Fund will calculate its NAV as of the close of each business quarter. Fluctuations in an investment's fair value may be caused by volatility in economic conditions, among other factors. Such fluctuations in the fair value are classified as unrealized gains or losses in the Fund's statement of operations. Upon the disposition of an investment, the corresponding gain or loss is classified as realized and will also be noted in the statement of operations.

Private investments are reported on the Fund's schedule of investments as being measured at fair value using the Fund's pro rata NAV (or its equivalent) without further adjustment, as a practical expedient of fair value, and therefore these investments are excluded from the fair value hierarchy. Generally, the fair value of the Fund's investment in a private investment represents the amount that the Fund could reasonably expect to receive from the investment if the Fund's investment is withdrawn at the measurement date based on NAV.

Investments in private financial instruments or securities for which no readily available pricing is available may be valued by an independent reputable third-party service provider on a quarterly basis or as needed. This includes securities for which the use of NAV as a practical expedient is permitted under U.S. GAAP because their value is not based on unadjusted quoted prices. In conjunction with input from the independent third-party valuation agent, the Adviser, as the Valuation Designee, shall value each Level III Investment on a quarterly basis.

The methods commonly used to develop indications of value for an asset are the Income, Market, and Cost Approaches. Each valuation technique is detailed in ASC 820.

The Income Approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. Those valuation techniques include present value techniques; option-pricing models, such as the Black-Scholes-Merton formula (a closed-form model) and a binomial model (a lattice model), which incorporate present value techniques.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

The Market Approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). For example, valuation techniques consistent with the market approach often use market multiples derived from a set of comparables. Multiples might lie in ranges with a different multiple for each comparable. The selection of where within the range the appropriate multiple falls requires judgment, considering factors specific to the measurement (qualitative and quantitative).

The Cost Approach is based on the amount that currently would be required to replace the service capacity of an asset (often referred to as current replacement cost). From the perspective of a market participant (seller), the price that would be received for the asset is determined based on the cost to a market participant (buyer) to acquire or construct a substitute asset of comparable utility, adjusted for obsolescence. Obsolescence encompasses physical deterioration, functional (technological) obsolescence, and economic (external) obsolescence and is broader than depreciation for financial reporting purposes (an allocation of historical cost) or tax purposes (based on specified service lives).

At various times, the Fund invests in SPVs and similar structures to gain exposure to securities of a single private issuer. The SPVs may hold forward contracts that represent the right to acquire common shares, common stock, preferred stock, profit participation units, an underlying SPV, or other investments. A third-party valuation agent will be engaged to determine fair market value of the SPVs taking the following into account: SPV financial statements, observed market indications, carry, fees, parity of SPV shares to underlying investment shares, forward contract credit risk, value of underlying investment(s) held by SPVs, and other relevant factors. The SPVs may incur a tax liability associated with distributions made by underlying portfolio investments. If an SPV charges management fees, those fees will be taken into consideration on the impact of the fair value of the SPV.

SPV Investments are categorized as Level 3 in the fair value hierarchy. The investments in an SPV that have yet to purchase the underlying securities are held at cost and are categorized as Level 3 in the fair value hierarchy. The Fund follows the guidance in GAAP that allows, as a practical expedient, the Fund to value such investments at their reported NAV per share (or if not unitized, at an equivalent percentage of the capital of the investee entity). Such SPVs may provide an updated NAV or its equivalent on a quarterly basis. The Fund's Fair Valuation Committee meets frequently to discuss the fair valuation methodology and will adjust the value of a security if there is a public update to such valuation.

The following table summarizes the levels within the fair value hierarchy for the Fund's assets measured at fair value as of December 31, 2023:

Assets

Investment	Level 1	Level 2	Level 3	Practical Expedient	Total
Common Stocks	\$ 1,036,928	\$ —	\$ 9,013,011	\$ —	\$ 10,049,939

(4) Capital Transactions

On January 25, 2021, the Organizer purchased 2,500,000 shares of the Fund's common stock, par value \$0.00001, for \$25,000.

In January 2021, the Fund commenced a private offering (the "Private Offering") of Simple Agreements for Future Equity ("SAFEs") pursuant to Rule 506(b) under the Securities Act of 1933, as amended, to a limited number of qualified purchasers, as such term is defined under Section 2(a)(51)(A) of the 1940 Act. A SAFE is an investment instrument similar to a convertible promissory note. The SAFE document is not a debt instrument, but rather appears on the Fund's capitalization table like other convertible securities such as options. Unlike a convertible note, the SAFE does not have a maturity date and contains provisions for conversion into shares of the Fund's common stock or redemption upon the occurrences set forth therein. Additionally, a SAFE does not accrue interest.

The purchasers of SAFEs are referred to as "SAFE Investors." As additional consideration of a SAFE Investor's purchase of the SAFE, each SAFE Investor was granted a warrant to purchase the number of shares of the Fund's common stock equal to the purchase amount of the SAFE divided by \$10.00 per share (or such amount per share established pursuant to any amendment to the terms of the SAFE) multiplied by either 40% for Tranche 1 or 30% for Tranche 2 and Tranche 3, rounded down to the nearest whole share (the "Warrant Shares") at a purchase price of \$11.50 per Warrant Share, subject to such adjustments as set forth in the terms of the SAFE (the "Warrant").

Immediately prior to the SAFE Conversion (defined below), and in accordance with the terms of the SAFE agreement, the Fund performed a reverse stock split of shares of the common stock to ensure that a sufficient amount of shares of the common stock not owned by the Organizer would be outstanding after the SAFE Conversion.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

On April 27, 2022, the Fund obtained approval from a majority of the SAFE holders to amend the SAFE Agreement to provide for a mandatory conversion of the SAFEs to shares of our common stock at a conversion price of \$10.00 per share (the "SAFE Conversion"). On May 11, 2022, each SAFE holder received from the Fund a number of shares of common stock equal to the total amount invested by such investor in the private offering divided by \$10.00. Following the SAFE Conversion and the reverse stock split, the Fund has 10,879,905 shares of common stock issued and outstanding.

The SAFE Investors who acquired shares of the common stock in connection with the SAFE Conversion (the "Lock-Up Shares") are subject to limitations on their ability to offer, sell or otherwise dispose of the Lock-Up Shares during the "Lock-Up Period". Immediately following the date the shares are listed for trading on the NYSE, 25% of the Lock-Up Shares will be freely transferable and not subject to the lock-up provisions as defined in the Fund's Registration Statement. The Lock-Up Period for the remaining Lock-Up Shares is:

- with respect to the first 33.33% of the remaining Lock-Up Shares, 60 days after the date our shares are listed for trading on the NYSE,
- with respect to an additional 33.33% of the remaining Lock-Up Shares, 120 days after the date our shares are listed for trading on the NYSE, and
- with respect to the last 33.33% of the remaining Lock-Up Shares, 180 days after the date our shares are listed for trading on the NYSE.

Warrants

As additional consideration in connection with the Private Offering, the Fund issued to investors warrants (the "Warrants") to purchase additional shares of the Fund's common stock at a purchase price of \$11.50 per Warrant, subject to certain adjustments set forth in the SAFE Agreement entered into between the Fund and purchasers of SAFEs. Pursuant to the terms of the Warrant Agreement, the Warrants had an expiration date of January 1, 2026.

The Fund evaluated the Warrants pursuant to ASC 480 to determine whether they represent an obligation requiring the Fund to classify the instruments as a liability. Management determined the Warrants did not meet the criteria to be classified as liabilities under ASC 480 and next evaluated them under ASC 815.

Management then determined the Warrants did not meet the definition of a derivative. It was thus determined to next evaluate them under the guidance in ASC 815-40-15-5 through 15-8 to determine whether they meet the criteria to be considered indexed to the Fund's own stock. Management determined the Warrants did not meet the criteria to be considered indexed to the Fund's own stock and were treated as a liability classified pursuant to ASC 815-40-15-7D.

After several discussions with the SEC staff, it was determined that the Warrants expired 120 days following the Fund's registration as an investment company on May 13, 2022, pursuant to Section 18 of the 1940 Act.

(5) Related Party Transactions

(a) Management Fee

On April 29, 2022, the Fund and the Adviser entered into an investment advisory agreement (the "Advisory Agreement"), whereby the Adviser receives a base management fee in the amount of 2.00 percent per annum (the "Base Management Fee") on the first business day of each month prior to a public listing of the Fund's shares of common stock. The Base Management Fee is calculated based on the average value of the Fund's invested capital. Under the Advisory Agreement, upon the listing of the Fund's shares of common stock on a national securities exchange, the Adviser will receive a Base Management Fee, payable quarterly in arrears, in an amount equal to 0.625% per quarter (2.50% annualized) of the average value of the Fund's gross assets, at the end of the two most recently completed calendar quarters. For purposes of the Advisory Agreement, the term "gross assets" includes assets purchased with borrowed amounts.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

Prior to the execution of the Advisory Agreement, the Fund and the Adviser operated under a separate investment advisory agreement whereby the Adviser received management fees in the amount of 2.00 percent per annum on a monthly basis. Management fees under the prior investment advisory agreement were calculated based on (x) the aggregate amount of the SAFEs purchased by SAFE investors multiplied by (y) the management fee divided by (z) twelve.

Additionally, from time to time, the Fund will invest in SPVs that charge management fees in connection with the Fund's investment. For the year ended December 31, 2023, the Fund paid \$0 in management fees in connection with its investments in SPVs.

(b) Administrator

U.S. Bancorp Fund Services, LLC, d/b/a US Bank Global Fund Services (the "Administrator"), serves as administrator to the Fund. Under the Fund Administration Servicing Agreement and the Fund Accounting Servicing Agreement by and among the Fund, the Adviser and the Administrator, the Administrator maintains the Fund's general ledger and is responsible for calculating the net asset value of the Shares, and generally managing the administrative affairs of the Fund. Under the Fund Administration Servicing Agreement, the Administrator is paid an administrative fee, computed and payable monthly at an annual rate based on the aggregate monthly total assets of the Fund.

(c) Service Providers

U.S. Bancorp Fund Services, LLC, d/b/a US Bank Global Fund Services ("USBGFS") serves as the Fund's dividend paying agent, transfer agent and registrar. Under a transfer agency services agreement, USBGFS is paid an administrative fee, computed and payable monthly at an annual rate based on the transactions processed. For the year ended December 31, 2023 the Fund paid \$0 in transfer agent fees.

U.S. Bank National Association ("USB N.A.") serves as the custodian to the Fund. Under a custody agreement, USB N.A. is paid a custody fee monthly based on the average daily market value of any securities and cash held in the portfolio. For the year ended December 31, 2023 the Fund paid \$6,129 in custody fees.

Employees of PINE Advisors LLC ("PINE") serve as officers of the Fund. PINE receives a monthly fee for the services provided to the Fund. The Fund also reimburses PINE for certain out-of-pocket expenses incurred on the Fund's behalf. For the year ended December 31, 2023 the Fund paid \$112,742 in chief compliance and principal financial officer fees.

(d) Affiliated Partners

The Organizer has made payments of the Fund's expenses and the Fund intends to reimburse the Organizer for these expenses. As of December 31, 2023, the reimbursable balance due to the Organizer is \$65,767 as reported on the Statement of Assets and Liabilities.

As of December 31, 2023, Affiliates of the Fund owned 14.75% of the Fund's shares.

(6) Commitments and Contingencies

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

The Fund may be required to provide financial support in the form of investment commitments to certain investees as part of the conditions for entering into such investments. As of December 31, 2023, the Fund did not have any unfunded commitments and did not provide any financial support.

The Fund is not currently subject to any material legal proceedings, and to the Fund's knowledge, no material legal proceedings are threatened against the Fund. From time to time, the Fund may be a party to certain legal proceedings in the ordinary course of business, including proceedings related to the enforcement of the Fund's rights under contracts with its portfolio companies.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

While the outcome of any legal proceedings cannot be predicted with certainty, to the extent the Fund becomes party to such proceedings, the Fund would assess whether any such proceedings will have a material adverse effect upon its financial condition or results of operations.

(7) Investment Transactions

The cost of purchases and proceeds from the sale of securities, other than short-term securities, for the year ended December 31, 2023, amounted to \$3,629,636 and \$0 respectively.

(8) Tax

The Fund intends to elect to be treated, and to qualify annually, as a RIC under the Code, for U.S. federal income tax purposes beginning with its taxable year ended December 31, 2023. If the Fund is unable to qualify as a RIC, the Fund will continue to be taxed as a C Corporation for the 2023 taxable year. In order to qualify as a RIC, among other things, the Fund is required to distribute to its stockholders on a timely basis at least 90% of investment company taxable income and must meet certain asset diversification requirements on a quarterly basis. As a RIC, the Fund generally will not pay corporate-level U.S. federal income taxes on any net ordinary income or capital gains that the Fund distributes to its stockholders as dividends and claims dividends paid deductions to compute taxable income. A RIC will not be eligible to utilize net operating losses. However, net operating losses may be available to offset any built-in gain on the Fund's conversion from a C Corporation to a RIC and would continue to be available if the Fund fails to qualify as a RIC for the 2023 tax year. As a result of the Company electing to be treated as a RIC as of January 1, 2023, it may be required to pay a corporate-level U.S. federal income tax on the amount of the net built-in gains, if any, in its assets (the amount by which the net fair market value of the Company's assets exceeds the net adjusted basis in its assets) as of the date of conversion (i.e., the beginning of the first taxable year that the Company qualifies as a RIC, which would be January 1, 2023) to the extent that such gains are recognized by the Company during the applicable recognition period, which is the five-year period beginning on the date of conversion.

Any corporate-level built-in-gains tax is payable at the time the built-in gains are recognized (which generally will be the years in which the assets with the built-in-gains are sold in a taxable transaction). The amount of this tax will vary depending on the assets that are actually sold by the Company in this 5-year period, the actual amount of net built-in gain or loss present in those assets as of the date of conversion, and the effective tax rates at such times. The payment of any such corporate-level U.S. federal income tax on built-in gains will be a Company expense that will reduce the amount available for distribution to stockholders. The built-in-gains tax is calculated by determining the RIC's net unrealized built-in gains, if any, by which the fair market value of the assets of the RIC at the beginning of its first RIC year exceeds the aggregate adjusted basis of such assets at that time.

As of January 1, 2023, the Company had a net unrealized built-in loss. It does not expect to incur a built-in-gains tax for the 2023 tax year due to the fact that there are net unrealized built-in losses and as well as available net operating losses.

Depending on the level of taxable income earned in a tax year, a RIC may determine to retain taxable income in excess of current year dividend distributions and distribute such taxable income in the next tax year. A RIC may then be required to incur a 4% excise tax on such income. To the extent that the RIC determines that its estimated current year annual taxable income, determined on a calendar year basis, could exceed estimated current calendar year dividend distributions, the RIC accrues excise tax, if any, on estimated excess taxable income as taxable income is earned.

The tax character of dividends paid to shareholders during the tax years ended in 2023 and 2022, as noted below, was as follows:

	2023	2022
Ordinary Income	\$ —	\$ —
Total Distributions Paid	\$ —	\$ —

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

Permanent items identified during the year ended December 31, 2023 have been reclassified among the components of net assets based on their tax basis treatment as follows:

ADDITIONAL PAID IN CAPITAL	ACCUMULATED DEFICIT
\$21,351,318	(\$21,351,318)

In general, we make certain adjustments to the classification of net assets as a result of permanent book-to-tax differences, which may include conversion-related items, differences in the book and tax basis of certain assets and liabilities, amortization of start-up costs, expense payments, nondeductible federal excise taxes and net operating losses, among other items.

The following information is provided on a tax basis as of December 31, 2023:

Cost of investments	<u>\$ 87,186,116</u>
Unrealized appreciation	9,568,520
Unrealized depreciation	<u>(39,373,377)</u>
Net unrealized appreciation/(depreciation)	(29,804,857)
Undistributed ordinary income	—
Undistributed long term gains	—
Distributable earnings	—
Accumulated gain/(loss)	<u>(3,644,927)</u>
Total accumulated gain/(loss)	<u>\$(33,449,784)</u>

As of December 31, 2022, the Company had a net operating loss carryforward for federal income tax purposes of \$3,588,375. This net operating loss may be carried forward indefinitely but would not be useable to offset income in taxable years in which the Company qualifies as a RIC. This net operating loss may also be subject to Section 382 limitations.

Capital losses in excess of capital gains earned in a tax year may generally be carried forward and used to offset capital gains, subject to certain limitations. For the tax year ended December 31, 2023 and December 31, 2022, we had capital loss carryforwards of \$0 and \$0, respectively, available for use in later tax years. While our ability to utilize losses in the future depends upon a variety of factors that cannot be known in advance, some of the Company's capital loss carryforwards may become permanently unavailable due to limitations by the Code. The Fund has \$0 of short-term capital loss carryforwards and \$0 of long term capital loss carryforwards, both of which have unlimited expiration.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on U.S. tax returns and state tax returns filed since inception of the Fund. No income tax returns are currently under examination. Tax years ended December 31, 2020 through December 31, 2023 remain subject to examination by the tax authorities in the United States. Due to the nature of the Fund's investments, the Fund may be required to file income tax returns in several states. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

(9) Recent Accounting Standards

From time to time, new accounting pronouncements are issued by the FASB or other standards setting bodies that are adopted by the Fund as of the specified effective date.

In June 2022, the FASB issued ASU No. 2022-03 "Fair Value Measurements (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions." This change prohibits entities from taking into account contractual restrictions on the sale of equity securities when estimating fair value and introduces required disclosures for such transactions. The standard is effective for annual periods beginning after December 15, 2023, and should be applied prospectively. Early adoption is permitted. The Fund has elected the early adoption of ASU 2022-03.

Destiny Tech100 Inc.

Notes to Financial Statements (continued)

December 31, 2023

(10) Restatement

Subsequent to the issuance of the financial statements for the year ended December 31, 2023, the Fund determined that it was appropriate to restate the presentation of the investments held by the Fund through SPVs in the schedule of investments included in the financial statements. As a result, the financial statements have been restated to revise certain line items and disclosure to align with Regulation S-X 12-12. The revisions to such line items reflect the name of the applicable SPV in which the investment was made, along with the number of units and the underlying issuer or economic exposure in parentheses, previously presented as the underlying issuer along with the relevant shares or principal amount. These revisions are reflected in the accompanying restated financial statements and do not affect investments, at fair value, total assets, total net assets, net asset value (NAV) per share, changes in net assets, total return, or the Financial Highlights. Accordingly, all corresponding notes and supporting disclosures have been updated. The Fund believes these revisions enhance comparability and transparency for financial statement users. Aside from the presentation revisions to the schedule of investments and corresponding footnote disclosures, all other financial information remains unchanged from the previously issued financial statements.

(11) Subsequent Events

Management has evaluated subsequent events for potential recognition and/or disclosure through the date of issuance of these financial statements and determined that none were necessary other than as set forth below.

As of January 22, 2024, DXYZ OAI I LLC has invested 100% of its capital into OpenAI Inc.

Destiny Tech100 Inc.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of
Destiny Tech100 Inc.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Destiny Tech100 Inc. (the “Fund”) including the schedule of investments as of December 31, 2023, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the related notes (collectively referred to as the “financial statements”), and the financial highlights for each of the years in the two-year period then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of December 31, 2023, the results of its operations and its cash flows for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the years in the two-year period then ended in conformity with accounting principles generally accepted in the United States of America.

Restatement of the 2023 Financial Statements

As explained in Note 10 to the financial statements, the accompanying financial statements have been restated.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of investments owned as of December 31, 2023, by correspondence with fund managers, custodians and portfolio companies or by other appropriate auditing procedures when replies were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

Marcum LLP

We have served as the Fund’s auditor since 2022.

San Francisco, CA
